

Joining Health Services to Improve Care

Dear Resident

A proposal to join health services together is being explored to improve service delivery and access to care for local communities – close to home.

Consultation is taking place with staff and the community to gain feedback on the proposal before any final decision is made.

Nathalia District Hospital, Cobram District Health and Numurkah District Health Service will seek approval from the Minister for Health to combine their operations under one new management entity, pending the outcome of consultation.

The existing facilities will remain in place, in their current locations. Current services will be maintained and enhanced. There will be no reduction in services or funding in relation to this proposal.

Resources and expertise will be combined across the three services to better meet the needs of the community. There will be no reduction in staff as a result of this proposal. Existing staff will remain in their current place of employment.

Nathalia Cobram Numurkah Health Services

Find Out More and Have Your Say

We want to know what is important to staff and the community to inform how the new entity and its services will look and operate.

We will keep people informed as we move through the process via the website, local media, community engagement sessions and mailouts.
